

Tridium Edge 10 End-of-Life Announcement

Technical Bulletin (TB250116A)

Tridium is currently planning a refreshed IP-based edge device to replace the Edge 10 (KMC part number **VEC-10**), which will be phased out by July 2028.

To help hardware partners with planning, the following are important events and dates in the Edge 10 EOL timeline:

- Niagara 4.15 is planned to launch in March 2025. It will be a long-term supported release, and the last supported Niagara 4 version for Niagara Edge 10*.
- Niagara Edge 10 EMEA Last Time Buy (LTB**) date is planned for December 31, 2025.
- Niagara Edge 10 US and APAC Last Time Buy (LTB*) date is planned for June 30, 2026.
- Niagara Edge 10 End of Software and Hardware Support date is planned for July 2028.

*Review the Niagara Framework Software Maintenance Policy and Matrix for prospective support end dates.

**Tridium's LTB is subject to product availability.
